

Remote - ME-RC

The ME-RC is designed to be simple to use while offering multiple functions in one place.

Easy-to-read: The large LCD screen and at-a-glance LEDs display the inverter/charger status in a straight-forward way. Soft keys give simple access to menus and a rotary encoder knob makes it easy to quickly scroll through menus and select settings.

Non-volatile memory:

Critical settings are saved even if the power is disconnected.

No cross platform confusion:

The ME-RC remote is the same remote used on all Magnum inverter/charger models in the MM-E, MMS-E, MS-E, MS-PE, and the RD-E Series lines.

Multiple functional settings:

The ME-RC offers multiple functions in one place, including: inverter on/off, charger on/off, shore power breaker settings, AGS control, meter button, simple setup, and technical menus.

A standard 15.2 m (50') 4-wire, twisted pair cable allows for plenty of room to display the Remote with ease.

MODEL NUMBERS:

- ME-RC50

WORKS WITH:

See inverter catalog:

MM-E Series
MMS-E Series
MS-E Series
MS-PE Series
RD-E Series

Remote - ME-ARC

This advanced feature remote offers the same simple push button operation of the ME-RC with advanced features and setup menus. The ME-ARC features a **Favs** button for storing up to five of your favorite setup menus, a **Control** button for fast easy control of the inverter, charger, and generator, meter button with AC and DC meters, advanced setup menus, and advanced tech menus.

Easy-to-read:

The large LCD screen and at-a-glance LEDs display the inverter/charger status in a straight-forward way. Soft keys give simple access to menus and a rotary encoder knob makes it easy to quickly scroll through menus and select settings.

Non-volatile memory:

Critical settings are saved even if the power is disconnected.

No cross platform confusion:
